

Don't settle for anything less than the top of the line for the top of your column. Reminiscent of time-honored architectural styles, Dixie-Pacific™ wide range of Decorative Capitals allows you to make a modern-day statement – bold, graceful, traditional, simple – for any Fiberglass or Paint-Grade Wood Columns for both interior and exterior applications. Crafted entirely by hand, every detail is crisp and unmatched in the industry – backed by almost 100 years of tradition and expertise.

Measurements in inches unless otherwise noted. There may be a variance of up to 1/4" in all dimensions.

NOTE:

- 8" - 12" Decorative Capitals are load bearing (unless split) and manufactured from lightweight polyurethane.
- 14" - 30" Decorative Capitals are non-load bearing (requires plug) and manufactured from lightweight polyurethane.
- Specify shape and size of structural support if Decorative Capitals are split for reassembly. The inside diameter of the Decorative Capital is significantly smaller than the inside top diameter of the column shaft.
- All Decorative Capitals are sold separately from the column.
- All dimensions are approximate. **Necking detail may vary.

Cutting Columns at Bead/Astragal

A. All DuraCast™ Round Tapered Fiberglass Columns and Paint-Grade (6" x 8'- 12" x 12') Round Tapered Wood Columns used with Decorative Capitals should be cut flush above the bead.

B. The Decorative Capital should rest on top of the bead to allow for a proper fit on the column.

The cut at bead loss and the Decorative Capital height must be taken into consideration when ordering columns. A column used with a short Decorative Capital may require a longer shaft.
